August 2, 2007

Dear Valued Supplier:

As the holder of a current Washington Closure Hanford LLC (WCH) service subcontract you are a vital part of the River Corridor Contract (RCC) Team. We appreciate the services your company provides.

I am sure that you understand that we are all obligated to give full value for the work we perform. While your employees are working for the RCC we expect them to devote their efforts completely and exclusively to the work scope of their subcontracts.

WCH firmly believes that "free and open competition" is the most effective way to obtain the best products and services at the best prices. In keeping with this belief and in the spirit of fairness, WCH does not allow marketing of future services by incumbent subcontractors while working under an existing subcontract. Activities which could unfairly influence future competitions include, but are not limited to, providing resumes for future solicitations directly to project staff and recruiting of current WCH subcontract employees for future, work during working hours.

This type of activity not only represents a violation of acceptable business practice but also could result in "unallowable costs" under the existing subcontract. WCH requests your cooperation in eliminating any marketing efforts within the confines of the Hanford Site and WCH offices unless and until it is authorized by the Procurement and Property Management Department.

If you are aware of any marketing being done on site or within the confines of WCH offices, please contact me at 509-375-4670.

We appreciate your continued support and cooperation regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. H. Houston', is written over a white background.

D. H. Houston, Manager
Procurement & Property Management
